

Pipe Coil Technology Limited

Equipment Solutions for Wire Rope
& Large Diameter Cable Manufacture

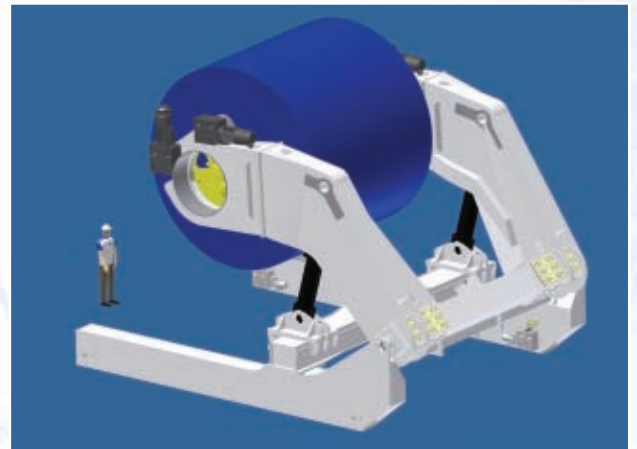

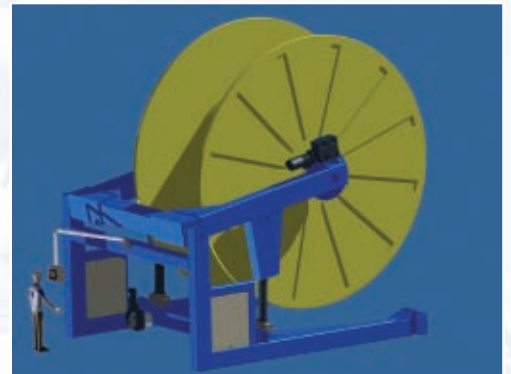

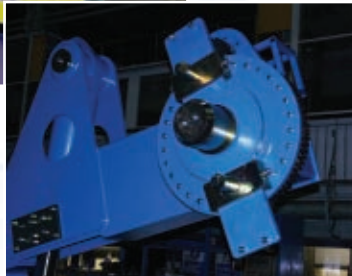

Pipe Coil Technology Limited design and supply several types of coiling, winding and handling machinery for use in the manufacturing of large diameter wire rope and power cable. The main equipment areas are;

- Take-up and payoff stands
- Drum moving equipment
- Turntables & A-frame spoolers
- Wire strand spooling machines

Equipment is supplied to meet the technical and commercial requirements of individual customers and we work closely with customers throughout projects to ensure compatibility of equipment with overall manufacturing processes and timely project completion.

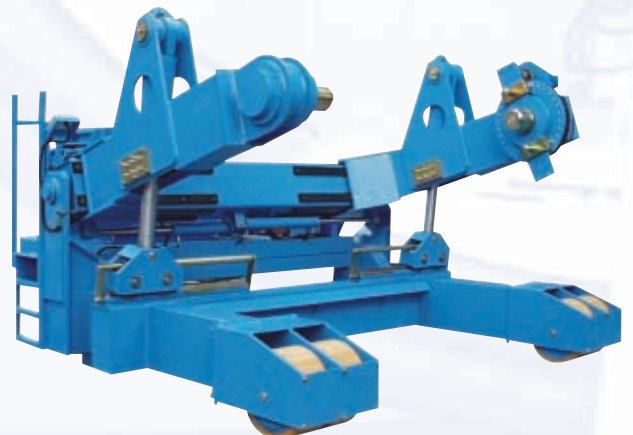

Take-up and payoff stands

- Pintle type, A-frame type or under-roller type
- Weight capacities from 1t to 200t
- Torque or speed control
- Automatic layering by traversing product, or by traversing the stand

Drum moving equipment

- Self powered or towed drum moving solutions
- Can be combined with take-up and payoff operations

Turntables & A-frame spoolers

- Turntables; robustly constructed with a wide range of diameter and weight capacities

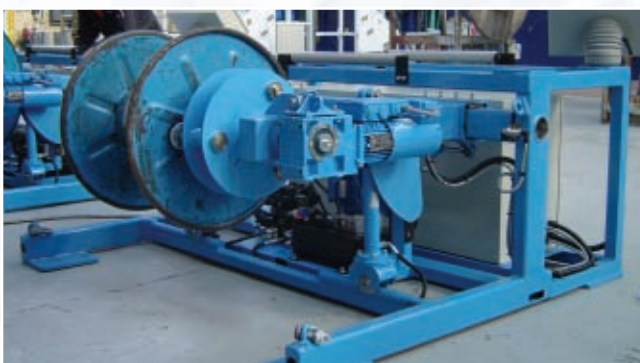

- A-frame type spoolers

Wire strand spooling machines;

- Transfer speeds up to 400m/min
- Drum to bobbin or coil to bobbin systems

Pipe Coil Technology Limited

Why industry leaders choose Pipe Coil Technology Limited

- We are committed to achieving the highest level of customer satisfaction and to building long term, mutually beneficial, partnerships with our customers
- We are experts at what we do; understanding customer needs, supplying technically superior solutions on time and in budget and providing excellent after sales support throughout product lifetime.
- Our project management, engineering and technical sales teams include specialists from the extrusion, oil & gas and automation industries who between them have many years experience in creating, delivering and implementing complex equipment solutions.

Products

For plastic pipe, tube, hose & conduit manufacture:

- Automatic coiling & packaging technology
- Semiautomatic coiling technology
- Off-line, high speed coiling technology
- Low ovality coiling technology (for HDPE pipe)
- Drum winding technology
- Engineered coiling solutions

For wire rope and large diameter cable manufacture:

- Drum take-up and payoff stands
- Turntables and spoolers
- Wire spooling and rewinding

For sub-sea umbilical, flow-line and cable manufacture:

- Carousels and loading systems
- Drum handling, moving and spooling equipment
- Production machinery; S-Z lay machines, rotating taping heads, caterpillar haul-offs, drum take-up & payoff stands
- Wire spooling and rewinding

For sub-sea umbilical, flow-line and cable installation:

- Carousels and loading systems
- Drum handling and spooling equipment
- Cable guides and transfer equipment
